STATEMENT OF CONDUCT AND GENERAL PRACTICES

MISSION STATEMENT

The mission of NODA is to enhance and elevate evidence-based orientation, transition, and retention practices in higher education that cultivate the development and education of student leaders, graduate students, practitioners, and scholars.

Core Values: Community, Diversity, Integrity, Learning, Scholarship, Service

NONDISCRIMINATION/AFFIRMATIVE ACTION STATEMENT

NODA declares a policy of equal opportunity and nondiscrimination in the provision of services to the membership and the public. In recognition of responsibility to the membership, NODA reaffirms its policy of fair and equal treatment in all practices to all persons regardless of race, color, age, marital status, sex, gender identity and/or gender expression, religion, national origin, ancestry, sexual/affectional orientation, disability or veteran status. NODA complies with all applicable federal, provincial, and state regulations regarding affirmative action and non-discriminatory practices.

EQUITY, INCLUSION, AND SOCIAL JUSTICE COMMITMENT

As the Association for Orientation, Transition and Retention in Higher Education, NODA embraces the values of equity, inclusion, and social justice within the orientation, transition, and retention fields and for its members. The need for engagement and understanding of these values is amplified with the intersections of identities that our members have, including but not limited to race, ethnicity, nationality, color, age, gender identity, gender expression, sexual orientation, ability, faith, religion, country of origin, immigration status, social class, veteran status, and all other identities.

As a global association, NODA's commitment is to ensure our membership, leadership, educational opportunities, events, and programs embody and embrace the values of equity, inclusion, and social justice. We acknowledge that upholding this commitment is a process. We hold our members, leadership, and the Association to these values and principles on behalf of our profession, our field, and our students. The Association leads this change through our ongoing efforts to create an inclusive, equitable and socially minded organization. Moving forward with an inclusive and equitable philosophy will not only benefit students, but professionals and institutions as a whole.

STATEMENT OF GLOBAL MEMBERSHIP

The commitment to the successful orientation, transition, and retention of students in higher education transcends national, cultural, and organizational borders and boundaries. NODA members represent various institution types, sizes, cultures, languages, and geographic locations. We ask our membership to commit to learning and collaborative environments free of assumptive nation-specific jargon and points-of-view. NODA commits to the leveraging of a global perspective to better support our members and build a stronger orientation, transition, and retention profession.

STATEMENT OF SUSTAINABILITY

NODA affirms our commitment to protect and enhance the environment and our surrounding communities through learning, service, education and administrative operations. We seek to collaborate with and assist our members concerning the creation of more sustainable orientation, retention and transition programs internationally. NODA will be a community that acts with a conscious mind towards social, economic, and environmental awareness and positive, intentional action whenever possible.

APPROPRIATE LANGUAGE STATEMENT FOR CONFERENCE PRESENTERS

As educators of students and colleagues, conference presenters must be particularly sensitive to and aware of the issues of language, and the perpetuation of stereotypes and erroneous assumptions. Presenters are strongly advised to model behavior that will educate their audience. All conference participants, presenters, and entertainers are expected to use appropriate, sensitive, and inclusive terminology so NODA will provide an environment which is comfortable for everyone.

JOINT STATEMENT ON RIGHTS & FREEDOMS OF STUDENTS

Academic institutions exist for the transmission of knowledge, the pursuit of truth, the development of students, and the general well-being of society. Free inquiry and free expression are indispensable to the attainment of these goals. As members of the academic community, students are encouraged to develop the capacity for critical judgment and to engage in a sustained and independent search for truth.

Freedom to teach and freedom to learn are inseparable facets of academic freedom. The freedom to learn depends upon appropriate opportunities in the classroom, on the campus and in the larger community. Students should exercise their freedom with responsibility.

The responsibility to secure and to respect general conditions conducive to the freedom to learn is shared by all members of the academic community. Each college and university has a duty to develop policies and procedures which provide and safeguard this freedom. Such policies and procedures should be developed at each institution with the framework of general standards and with the broadest possible participation of the members of the academic community. *NASPA, Washington, D.C., November 1992*

Failure to take the honor and responsibility seriously can damage the Association and hold personal and professional consequences.

Leadership involves representing stakeholders and requires time. Time commitments were clarified prior to your applying for the position. Remember that by accepting a position you agree to make this time commitment to serve the Association membership.

Following these standards and commitments is a matter of leadership obligation. If you are unable to uphold these standards and commitments, Association leadership will determine if the position is a good fit for you. As a NODA leader it is imperative to know and practice the following:

You are a representative of NODA and membership looks to you as a professional leader. You should demonstrate good faith, prudent judgment, honesty, transparency and openness in our activities on behalf of the organization.

- Commit ourselves to ethical, businesslike, and lawful conduct, including proper use of authority and appropriate decorum. Set aside personal agendas when speaking and voting.

4. Be an Active Participant

As a leader, you should be fully engaged in your role within NODA. This mean that your approach to participation should be intentional, thoughtful, and collaborative.

- Leaders must be prepared to engage in all NODA activities and serve as active participants throughout their position. Utilize knowledge based governance as your approach to meetings.
- When asking questions and sharing opinions be mindful and respectful of people and time.
- Refrain from making judgmental statements, criticizing those who are absent, monopolizing the conversation, and conducting side conversations.

~~~~~

If you find yourself overwhelmed or unable to fulfill your leadership role, have a conversation with the appropriate leadership or a NODA staff member as soon as possible. Explain your situation and discuss the options.

Leadership performance impacts general membership and NODA staff members, and may have financial implications. Failure to follow leadership standards and commitments, inability to fulfill duties of the position, and/or inappropriate behavior will not be tolerated and may result in removal of position. If removal of position is necessary, the appropriate leadership or a NODA staff member will communicate with the individual.

## **NODA NETWORKS**

---

### **GENERAL**

***Definition & Categorization***

The NODA Networks meet the many needs of our members by creating communities of practice where members engage in a collective process of learning through intentional interactions, networking, sharing of resources, and creation of knowledge furthering the mission of the Association. Each Network represents an opportunity for members to affiliate with a group in which they have personal, professional or institutional interest. Members may align with several Networks and are encouraged to pursue leadership roles within the Network structure.

The purpose and function of a NODA Network depends on if they are categorized as an institutional, constituency, or a topic based network.

***Institutional Networks*** are designed to serve a specific institution type and their interests to the NODA leadership, members and the higher education community. These communities also serve the membership by contributing to the knowledge base, providing programs and professional development opportunities and social networking among NODA members. Members find value in networking with each other, sharing knowledge, resources, best practices and research related to the nature of orientation, transition and retention at these specific institution types.

***Constituency Communities*** are designed to serve a particular constituency (member and/or constituencies members serve on their campuses) and their interests to the NODA leadership,

members, and the higher education community. The primary focus of these communities is to help NODA members network with each other.

*Topic-Based Communities* strive to share the community best practices, facilitate research, generate new knowledge and provide educational resources specific to a particular topic area which aligns with the mission of the Association. While these groups can generate a peer group around these topics, the primary focus is to expand and contribute to the knowledge base about a specific topic.

#### **PURPOSE/ROLE OF NODA NETWORKS**

- Generate discussions and new knowledge regarding current issues
- Provide a forum for networking
- Advocate for issues
- Advise Board of Directors
- Host meetings, roundtables and/or social events at the Annual Conference
- Encourage presentations at Regional and Annual Conferences
- Provide articles for NODA publications

#### **NETWORK RECRUITMENT**

NODA members have the ability to select Networks of interest during member registration/renewal and when registering for NODA educational opportunities (Regional, Annual Conferences, etc.). NODA members can edit Network preferences on their member profile through the NODA website.

#### **NETWORK CHAIRS**

Each Network is led by one chair or two co-chairs, who serve two year terms. Candidates for vacant Network chair positions are identified through an application/selection process facilitated by the Chair of the Network Coordination Committee. Finalist names are provided to the NODA President for appointment. A position description for Network Chairs may be found in the Standard Operating Procedures Manual.

If a Network Chair resigns their position prior to the end of their term, the Chair of the Network Coordination Committee along with the President will appoint a new chair to serve the remainder of the term. Network Chairs may serve consecutive terms.

With approval of the Network Coordination Committee Chair and President, Network Chairs may create additional leadership opportunities within the Network to best serve its membership, including but not limited to Regional Network Representatives, Newsletter editors, etc.

#### **PROCESS FOR THE CREATION OF A NETWORK**

The membership of the Association and the populations they serve are constantly changing as are the needs of these constituencies. In order to assist our members in addressing these new populations and/or topics, the Association is open to the establishment of new Network groups. The Association has implemented the following process in order to appropriately assess the

request to establish a new Network. Individuals interested in creating a new Network should contact the NODA Association Office and provide the following information

1. Rationale – Justification for the creation of the group, identification of membership it will serve, how it aligns with the mission of the Association, draft of charge.
2. Leadership - The group must have at least two individuals willing to serve as co-chairs for a two year term.
3. Founding Members - Must be no less than 15 NODA members.

If approved by the NODA Board, the group will exist in a “trial” status for two years. Sustained membership and interest after the two year period will be evaluated to determine whether the group will move to permanent Network status. The status of the group is for internal purposes only.

### **SUSPENSION/DISSOLUTION OF A NETWORK**

Acting as a community of practice, Network vitality is based on membership interest and participation. Networks will be evaluated on a three-year cycle to determine whether the Network should remain active or be placed on suspension status. Networks placed on suspension may be reactivated by membership within a 3 year period. Networks that remain inactive for more than three years must reapply to be recognized as a Network.

## **FISCAL ISSUES**

---

### **FISCAL YEAR**

Fiscal Year for NODA is July 1 to June 30.

### **INVESTMENT ADVISORS**

NODA shall retain an independent agency to manage the Association's investment funds. Every five years, NODA will complete a request for proposals to review the management fee structures of potential investment advisor agencies and the fee structures connected to investment vehicles.

#### ***Investment Goals***

The Association's Investment goals are:

- Invest only current assets identified for this purpose
- Invest at a moderate to conservative level

### **ASSOCIATION RESERVES**

#### ***Definitions***

- Cash is defined as amount held in the Association checking and savings accounts.
- Investments is defined as the amount held in managed investment funds. The Association will maintain two funds: a low risk/low return fund (money market account) and a moderately more aggressive risk fund (mutual fund).
- Reserves are defined as the total amount of cash plus investments.

The Association will reinvest all managed investment income/interest back into the corresponding managed investment fund. Withdrawals from the investment account(s) require Board approval. Approved Association budgets reflecting withdrawals (deficit budgeting) from investment account(s) will not require further action from the board.

At least 50% of the current annual budget expenses must be in reserves at the start of the fiscal year. Of that, six (6) months of funding for "essential operations" shall remain in the lower risk investments account. Essential operations include, but are not limited to, staff salaries and fringe, student salaries, rent, telephone, technology, and other contracted services. The value of essential operations in the investment account does not replace the line items within the annual operational

budget. The essential operations total dollar amount will be determined by the Association staff and presented to the board annually as part of the budget planning process.

If deficit budgeting is warranted, the Finance Committee will not recommend to the Board a deficit budget more than 1/5 of the total amount held in investments minus essential operations as of January 1 of the current fiscal year.

Annual gains from the high yield investment account will constitute available funding for strategic initiatives, as approved by the board, for the fiscal year. This is determined based on the increase in value of the account from the start of the previous fiscal year. Funds pulled from the high yield investment account by board approval for other purposes do not impact the valuation of profit or loss.

Association reserves may be used, with Board approval, to fund strategic initiatives that align with the Association's current Strategic Plan. Up to 50% of total cost of a new initiative can be supplemented with Association reserves in the first year. Ongoing supplemental funding will be provided in decreasing increments for a period not to exceed five years (e.g. up to 40% of total cost in year two, up to 30% of total cost in year three, etc.). After five years, it is expected that a strategic initiative will generate revenue to cover the total cost of said initiative.

## **INSURANCE**

The Executive Director will attain insurance coverage for all NODA records, assets and conference liabilities.

## **AUDIT**

NODA shall retain an independent agency recommended by the Secretary/Treasurer in collaboration with the Executive Director and approved by the Board of Directors to perform an audit of all the Association's financial records. Every six years, the Association will complete a request for proposals to provide audit and annual tax services for the Association. The audit shall be conducted every two years.

## **CONTRACTS**

The Executive Director, or Executive Director designee, shall have the authority to sign contracts for the Association. Contracts over \$10,000 must be signed by the Executive Director.

## **NON-MEMBER RATES**

- The Association will establish non-member rates for NODA events.
- Rates will be reviewed on a yearly basis. Proposals to change non-member rates must be reviewed and approved by the NODA Board of Directors.
- The Executive Director shall have the authority to waive the non-member rate for an individual or an event on a case-by-case basis.

## **CAPITAL PURCHASES & CAPITALIZATION THRESHOLD**

### ***Definition and Threshold:***

Capital purchases comprise furniture, fixtures, equipment, software, leasehold improvements that meet two criteria:

- 1) an estimated life of at least three years, and
- 2) the cost is in excess of \$2,000

Donated equipment is capitalized at market value on the date of the gift. Depreciation is computed using the straight-line method and ½ year convention over the estimated useful lives of the assets.

Computers and peripheral equipment are expensed in the year of purchase. Maintenance, repairs and minor improvements are expensed as incurred.

### ***Approval:***

NODA's Capital Budget is updated each year and should include proposed capital purchases that are anticipated to take place during the year. Those purchases are itemized within the approved Association budget are considered approved.

NODA's Capital Budget includes a discretionary fund (in case of emergency), of 1% of the current annual budget that can be accessed by the Executive Director without prior approval, provided resources are available, and with the stipulation that the Board be informed of any use of the fund at the next regular meeting.

Capital purchases not within the approved capital budget, or beyond the scope of the discretionary fund, must be specifically approved by the Finance Committee. To seek such approval the Executive Director must provide the price and rationale for the purchase and assurance of availability of financial resources to support the purchase.

### ***Recordkeeping:***

NODA shall maintain a list of fixed assets showing the date of the acquisition, its cost, and a schedule for depreciation of the asset. NODA shall keep on file documentation for each purchase.

Annual depreciation expense will be included in NODA's annual operating budget.

For each purchase, the Executive Director shall evaluate whether the acquisition will have an impact on insurance coverage, determine if present coverage valuations are adequate, and obtain additional coverage if necessary.

## **NODA'S ORIENTATION, TRANSITION, & RETENTION (OTR) CATALYST GRANT**

---

The OTR Catalyst Grant is designed to catalyze new research that will advance both knowledge and best practices in orientation, transition, and retention. Prospective research studies, pilot studies, exploratory research projects (qualitative and quantitative), as well as assessment-based

best practices (as defined by Upcraft and Shuch, 2002) that may be generalized will be considered for this award. Up to six catalyst grants (two \$1,000 grants and four \$500 grants) will be awarded to emerging OTR research. All grant recipients will also receive registration fee for one annual NODA Conference or regional conference and a year's membership to the association. Grants funds may be used to support professional development, researcher(s) stipends and project expenses.

## **VOLUNTEER & REMUNERATION**

---

NODA recognizes volunteers are critical to fulfilling the mission and vision of the Association. The Association also recognizes our members are pulled in many directions professionally and personally; we appreciate those who give of their limited time to support NODA's mission. To honor this commitment, NODA believes all volunteers should at a minimum be publicly recognized for their work and should be appreciated upon completion of their role.

When creating this policy, the following was considered:

- Public and personal recognition is important and should be done at all levels of the Association.
- This was developed in order to help increase the number of volunteers in leadership roles.
- Volunteering for the Association should not come at significant cost to the individual or their institution.
- Some positions require specialized expertise (i.e. external review & Subject Matter Expert [SME]) and are remunerated at higher rates due to the limited availability of the individuals who can perform these roles and to attract the highest caliber of talent.
- The modality of a program impacts the cost to the Association and the individual, this proposal helps defray some of the travel costs when in-person modality is chosen.
- Different remuneration rates were considered depending on if the volunteer was responsible for the development of a program or event versus the execution of an existing plan.
- While hourly remuneration is not feasible at this time, hours required to implement each program / event were considered.
- In developing the final policy, revenue generation and advancement of the strategic plan were considered and prioritized.
- \*Volunteers who are in need of travel support to attend or participate in a NODA event for which they are volunteering are encouraged to apply for NEF funding under the "leadership" category.

Additional information about remuneration details:

- Financial honorarium payments will be sent directly to the recipient, not the recipient's institution.
- Any honorarium over \$600 is taxable income and will require a W-9 (this is managed by the Association Office)

Below outlines current volunteer role types and subsequent recognition and remuneration. The position responsible for implementation of this policy is also listed.
